The Claims EDI R3.1 NYS Claims Release EDI R3.1 FROI/SROI Change 02 Required has been revised and posted on the **New York Requirements Table** page. The update includes additional information in preparation for the Claims EDI R3.1 upgrade.

This document will be reviewed in further detail during July’s eClaims Trading Partner Webinar.
eClaims Topics
Web Data Entry Update

- It was recently discovered that eClaims Web Data Entry application was accepting FROIs and SROIs with characters not on the US English keyboard.
- Those characters (including any carriage returns, line feeds, and tabs) should have been rejected with Error 111 (Must be valid content) and a message that the characters "must be ASCII character 32-126" since those are the characters on the US English keyboard.
- We will be fixing the eClaims Web Data Entry to reject FROI and SROIs with those unacceptable characters. Going forward, only characters on the normal US English keyboard should be used on FROI/SROIs.
- If you have submitted these characters through Web Data Entry, the eClaims team will be reaching out to you shortly.
Nature/Cause of Injury Codes

- The Injury Codes were approved by the Workers’ Compensation Insurance Organizations (WCIO) and are now available on the [WCIO website](#).
- The WCIO has updated the Injury Description tables that are used by the International Association of Industrial Accident Boards and Commissions (IAIABC) to reflect specific coding in response to COVID-19.
- The following codes are anticipated to be used for the reporting of any cases with a DN0290 (Type of Loss) = 02 (OD) with a DN0031 (Date of Injury) of December 2019 or later:
  - DN0037 (Cause of Injury Code) -- 83 for "Pandemic"
  - DN0035 (Nature of Injury Code) -- 83 for "COVID-19"
COVID-19 Related Stress and Depression

- The following codes are anticipated to be used for the reporting of any cases with a DN0290 (Type of Loss) = 02 (OD) with a DN00031 (Date of Injury) of December 2019 or later:
  - DN0037 (Cause of Injury Code) -- 83 for "Pandemic"
  - DN0035 (Nature of Injury Code) -- 83 for "COVID-19" or 77 for "Mental Stress"

- DN0036 (Part of Body Injury Code) -- 66 (No Physical Injury) in the description should be COVID-19.

- The Board expects trading partners to send a FROI-02 on any cases that the incorrect DN0037 (Cause of Injury Code) of 83 for “Pandemic” and a new DN0035 (Nature of Injury Code) was reported.

- When reporting a death claim, DN0057 (Employee Date of Death) and DN0146 (Death Result of Injury Code) are required.
