eClaims Overview

The Board is adopting a national standard for claim administrators to electronically submit employer claims data. The standard is the International Association of Industrial Accident Boards and Commissions' (IAIABC) Claims Electronic Data Interchange (EDI) Release 3.0. This electronic filing of claims data will be implemented in phases, beginning in spring 2013, and will provide timely, accurate, and credible electronic reporting.

More than 30 states currently use or are actively planning to use the IAIABC EDI standard for claim submissions. Most national carriers already utilize the standard in those jurisdictions. The technology is recognized as the national best practice for First Report of Injury/Subsequent Report of Injury (FROI/SROI), and has a proven track record.

The Board is collaborating with claim administrators in the workers' compensation industry to ensure that this transition to electronic filing is as seamless as possible. Electronic claims filing supports the Board's continuing effort to improve services to injured workers of New York and their employers. In fact, based on the experience of other states that have implemented the IAIABC standard, the Board anticipates that its adoption in New York will yield significant benefits.

The Board is supporting transparent and continuous two-way communications with all stakeholders impacted by this transition. As a first step, the Board's Office of Stakeholder Outreach and Education requested that insurance carriers, self-insurers and third party administrators provide their departmental contact information. This contact information enhanced the Board's capacity to directly interact with appropriate individuals from these stakeholders.

For more information on the IAIABC Claims Release 3.0, please visit the EDI Implementation Guide section of the IAIABC website at www.iaabc.org.

Maintenance Type Codes (MTCs)

What are Maintenance Type Codes (MTCs)?

- Further describes *type* of FROI or SROI being submitted
- Used to report business (claim) events
- Examples of MTCs
 - FROI-UR Upon Request
 - FROI-00 Original Report

FROIs and SROIs

EDI means some paper forms will no longer be used to report claims events to the Board.

Form ID	EDI Submission
C-2, VF-2, VAW-2*	FROI
C-669	FROI or SROI
C-7	FROI or SROI

Note: Some parties will still need to receive paper copies of some forms.

The C-11 and C-240 will still be paper forms.

*Employers will still be able to file a C-2, VF-2, VAW-2 but Insurers won't.

Claims EDI Tables

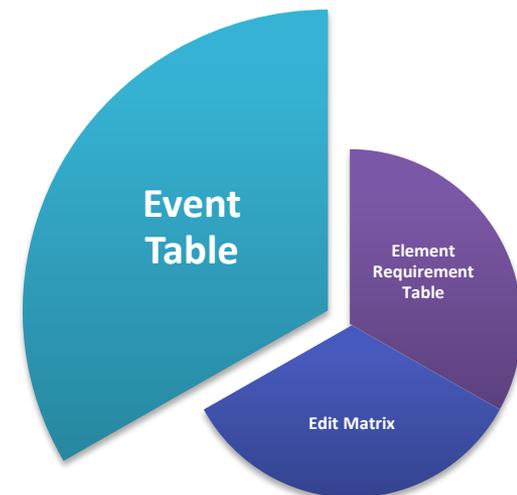

EDI Reporting requirements are defined on the following tables:

Note: Only transactions that pass all edits are duly filed

Event Table—Required reports

- Includes *Form to MTC Crosswalk*
- What events need to be reported
 - Note that SROI-SA Sub Annual is new report
- When to file based on laws and regulations
- What, if any, required paper form mailings need to be sent to parties

EC-1.1, EC-84 or correspondence	01	Cancel	The original first report was sent in error.
EC-1.1, EC-84 or correspondence	02	Change	The claim administrator initiates a Change MTC when it identifies a change in a data element designated on the Element Requirement Table.
C-2, VF-2, VAW-2 with C-7	04	Denial	The entire claim is being denied.
NA	AQ	Acquired Claim	Minimal data sent to report that a new claim administrator has acquired the claim.
C-2, VF-2, VAW-2 with C-669	AU	Acquired/ Unallocated	The equivalent of an initial first report (MTC 00) filed by a new claim administrator in response to an AQ transaction that has been rejected because of no claim match on database or when an AU is sent in lieu of an AQ based on the Jurisdiction's Event Table.

FROI Event Table

The First Report of Injury (FROI) Event Table is designed to provide information integral for a sender to understand New York's EDI reporting requirements. It relates EDI information to the circumstances under which they are initiated as well as the timeframes for sending the information. These circumstances and timeframes reflect legislative mandates and specifications relative to reporting requirements based on various criteria.

Interpreting New York's requirements: For a (Report Type) (Maintenance Type-Code) meeting (Event Rule Criteria) within (Event Rule Date range - FROM/THRU) where the (Trigger Criteria-Trigger Value), the Report is due (Report Due Value-Type) from the (Report Due-From). If the Event Rule Thru date is blank, reporting requirements apply until further notice. When a Paper Form(s) is indicated, this implies that in addition to the EDI transaction, this form(s) must be sent to the Receiver indicated. When multiple events for an MTC are listed, the report is due on whichever due date is greater.

Element Requirement Table

Data Element requirements are defined for each transaction (FROI or SROI) at the Maintenance Type Code (MTC) level on New York Element Requirement Table.

Element Requirement Table

Six worksheets in Element Requirement Table include:

FROI Element Requirements

FROI Conditions (for MCs)

SROI Element Requirements

SROI Conditions (for MCs)

Event Benefit Segment Requirements

Event Benefit Conditions (for MCs)

Note: NY has added two additional worksheets for informational purposes. They are Sweep Benefit Segment Rules and Benefit Segment Pre-Defined conditions. These are standards as stated in the IAIAIBC Implementation Guide.

Element Requirement Table- Requirements

Requirement Codes express a jurisdiction's requirements by data element and report type (FROI or SROI MTC's)

Requirement Codes are:

M(Mandatory), MC (Mandatory/Conditional), IA (If Applicable/Available), NA (Not Applicable), F (Fatal Technical), and X (Exclude)

fy Note: For MTC 02, per the Match Data Rules, only one Match Data element can be changed per transaction. Lower case requirement codes indicate these *Match Data* data elements. Exceptions: First & Last Name can be changed at the same time; and Employee ID Type Qualifier, Employee SSN, and Employee ID Assigned by Jurisdiction can be changed at the same time.

Child support lien

Employee John Doe fell from a ladder at the employer's jobsite located at 1234 Broadway, Albany, NY and broke his right leg on **August 1, 2012** at 1:00 p.m. The employee left work immediately after the injury and **has not returned to work.**

A Court-ordered child support in the amount of \$50 per week has been assessed against Mr. Doe's compensation to be paid directly to Mr. Doe's ex-wife.

The Claim Administrator **issued a check on August 15, 2012** to the injured employee, for **Temporary Total Disability Benefits**, for the period **August 2, 2012 through August 15, 2012 and continuing.** The Claim Administrator also issued a check to the ex-wife for the same period's child support.

The Claim Administrator reported the loss and initial payment information to the NYS Workers' Compensation Board by sending both the Original First Report of Injury (**FROI 00**) and Initial Payment (**SROI IP**) transaction reports to the NYSWCB on **August 8, 2012 (FROI)** and **August 15, 2012 (SROI).**

FROI Sequencing Table

FROI and SROI sequencing are listed on separate worksheets

Partial list from FROI Sequencing Table:

This **FROI Sequencing Table** provides New York's MTC sequencing for incoming FROIs. It is meant to convey to the trading partner the sequencing rules that clarify how New York will apply Edit 063 - Invalid Event Sequence. **These edits will be applied on a per claim administrator basis for the current reporting responsibility.** See the Notes below this table for clarification on that and the full details of the sequencing edits that will be applied.

If your incoming FROI MTC is:	[Edit #1] Allowed if your last accepted FROI MTC (besides any FROI-02) is listed here: * None means that no FROIs have been accepted from you.	[Edit #2] Allowed if any SROIs have been accepted from you:
FROI-00	None* 01 04	Not applicable
FROI-01	00	No
FROI-02	00 04 AQAU UR	Yes
FROI-04	None*	Not applicable
FROI-AQ	None*	Not applicable
FROI-AU	None*	Not applicable
FROI-UR	None*	Not applicable

Notes that apply to both FROIs and SROIs:

1. If your incoming FROI/SROI gets rejected due to one the FROI/SROI sequencing edits, make sure to check all Edit 063 (Invalid Event Sequence) returned with it, since in a few situations, there could be multiple.

SROI Sequencing Table

Partial list from SROI Sequencing Table:

If your incoming SROI MTC is:	[Edit #1] Allowed if your last accepted FROI MTC (besides any FROI-02) is listed here:	[Edit #2] Can this MTC be your first accepted SROI ?	[Edit #3] Allowed if any of these SROI MTCs have been previously accepted from you:	[Edit #4] Can this SROI MTC be accepted from you multiple times?	[Edit #5] Allowed if your last accepted SROI MTC (besides any SROI-02/CA/PD/PY/SA) is listed here:	[Edit #6] Must there be (or not be) ongoing indemnity payments occurring for this incoming SROI to be accepted?	[Expectation] An accepted SROI with this MTC indicates the following concerning ongoing indemnity payments (which is used for Edit #6 on future incoming SROIs):
SROI-02	00 AQ AU UR	No	Any SROI	Yes	04 AP CB CD EP ER IP RB RE S1 S2 S4 S5 S7 SD SJ UR		Still occurring or not
SROI-04	00 AQ AU UR	Yes		Yes	CD S1 S2 S4 S5 S7 SD SJ UR	Must not be	Still not occurring

SROI-IP	00 UR	Yes		No	04 CD EP ER S1 S2 S4 S5 S7 SD SJ UR		Starts or continues

1. See the "Notes that apply to both FROIs and SROIs" underneath the FROI Sequencing Table.

Acknowledgment Record

- An acknowledgment is a transaction (automated response) returned by the jurisdiction as a result of an EDI report sent. It contains enough data elements to identify the original report sent and communicates any technical business issues found with the report.

Acknowledgment

There are two values for an individual transaction that a NYS Trading Partner could receive:

TA = Transaction Accepted

The transaction was accepted by the jurisdiction. No errors were found on the transaction.

TR = Transaction Rejected

A business or technical error was found and the transaction was not accepted by the jurisdiction.

Acknowledgment

- Submitter is responsible for reviewing all acknowledgment files
- Rejected transactions must be analyzed so that appropriate data can be sent in the next file
 - **Note:** Rejected transactions are not duly filed. A fixed transaction should be resent since only accepted transactions are duly filed.
- Even accepted transactions need to be reviewed so that future transactions use the appropriate WCB# (JCN) on subsequent transactions

Next Steps for Trading Partners

- Business staff and IT staff work together to determine if you are going to file by flat file or use the Board's web data entry application.
- Understand Mandatory fields on Element Requirement Table and verify that you collect this data. Note: Web data entry application has same edits as flat file.
- Review the eClaims Implementation Schedule to identify your testing/implementation date.
- Review the IAIABC & eClaims Implementation Guide.
- Trading Partners should complete the registration process in February.
