- [eClaims Change Log](#): The "Edit Matrix-Population Restriction Table" has been updated. The updates are summarized on the eClaims change log under items #398-400 announcing the following changes:

  - Per IAIABC notification on March 20, 2020, the Workers Compensation Insurance Organizations (WCIO) has added a new **Cause Code of 83 for Pandemic** and a new **Nature Code of 83 for COVID-19**. The new Injury Description Tables may be found on the WCIO website at wcio.org. New York has added these codes to their Claims EDI tables for FROI reporting effective March 25, 2020, for DN0035 (Nature of Injury) Code and DN0037 (Cause of Injury) Code. Note: It is expected that FROI-02s are filed if FROIs have already been filed with incorrect Cause or Nature codes since the NY Element Requirement Table lists both data elements severity rankings as "Y".
