REFMED NOTICE

The *Official New York State Workers' Compensation Behavioral Health Fee Schedule* is designed to be an accurate and authoritative source of information about medical coding and reimbursement. Every reasonable effort has been made to verify its accuracy, and all information is believed reliable at the time of publication. Absolute accuracy, however, cannot be guaranteed.

RefMed worked closely with the New York Workers' Compensation Board in the development, formatting, and production of this fee schedule. However, all decisions resulting in the final content of this schedule were made solely by the New York Workers' Compensation Board.

This publication is made available with the understanding that the publisher is not engaged in rendering legal and other services that require a professional license.

For additional copies of this publication or other fee schedules, please call 863.222.4071.

AMERICAN MEDICAL ASSOCIATION NOTICE

Fee schedules, relative value units, conversion factors and/or related components are not assigned by the AMA, are not part of CPT, and the AMA is not recommending their use. The AMA does not directly or indirectly practice medicine or dispense medical services. The AMA assumes no liability for data contained or not contained herein.

CPT is a registered trademark of the American Medical Association.

NEW YORK WORKERS' COMPENSATION BOARD FILING NOTICE

The Behavioral Health Fee Schedule was duly filed in the Office of the Department of State, and constitutes Sections 333.1 and 333.2 of Title 12 of the Official Compilation of Codes, Rules and Regulations of the State of New York.

OUR COMMITMENT TO ACCURACY

RefMed is committed to producing accurate and reliable materials. To report corrections, please visit marketplace.refmed.com or call 863.222.4071.

FOREWORD

The Workers' Compensation Board is pleased to present the updated version of the *Official New York State Workers' Compensation Behavioral Health Fee Schedule*.

The revised fee schedule is an essential tool for health care providers and those paying the cost of health care services under the New York State Workers' Compensation system. This schedule provides comprehensive billing guides, which will allow health care providers to appropriately describe their services and minimize disputes over reimbursement. Also, this schedule includes many new procedures and coding changes that have taken place since the previously published fee schedule.

This fee schedule could not have been produced without the assistance of many individuals. The spirit of cooperation between the provider and payer communities is very much appreciated. The excellence of this schedule is due, in large part, to the commitment of many people in the workers' compensation community. We are grateful for their efforts.

Except where noted, this fee schedule is effective for medical services rendered on or after [Insert Date], regardless of the date of accident. The fees established herein are payable to health care providers authorized or permitted to render care under the Workers' Compensation Law, Volunteer Firefighters' Benefit Law, and Volunteer Ambulance Workers' Benefit Law.

Behavioral Health Ground Rules.....	8
Appendix	17

1 Introduction and General Guidelines

The *Official New York State Workers' Compensation Behavioral Health Fee Schedule* shows behavioral health services and their relative value units. The services are listed by Current Procedural Terminology (CPT®) codes. The relative value unit set for each CPT service is based on comparative magnitude among various services and procedures. The relative value units within each section apply only to that section. CPT is a registered trademark of the American Medical Association (AMA).

The accompanying instructions and ground rules explain the application of these procedure descriptors and relative value units.

Because the Behavioral Health Fee Schedule is applicable to all of New York State, a large and diverse geographical area, the relative value units contained herein do not necessarily reflect the charges of any individual medical provider or the pattern of charges in any specific area of New York State.

A primary purpose of the schedule is to provide a precise description and coding of the services provided by authorized physician, psychologists, psychiatric nurse practitioners, licensed clinical social workers, and physician assistants in the care of workers' compensation covered patients and ensure the proper payment for such services by assuring that they are specifically identifiable. The Behavioral Health Fee Schedule is for use by these medical providers delivering behavioral health services and treatment to injured workers covered under Workers' Compensation Law. Physician, physician assistants and psychiatric nurse practitioners may use the full version of the *Official New York State Workers' Compensation Medical Fee Schedule* and the codes and conversion factors therein.

Psychologists and licensed clinical social workers are to bill for services listed in this section of the fee schedule as appropriate. Physicians, nurse practitioners, and physician assistants with appropriate rating codes may also use this fee schedule with MD/NP/PA conversion factors as listed. Also see page 8 and Appendix.

Inclusion of a code in this Fee Schedule does not guarantee reimbursement. All codes billed should be based on medical necessity and be in alignment with all applicable Medical Treatment Guidelines and Fee Schedule Ground Rules, as further discussed herein. Reimbursement may be dependent on multiple factors, including but not necessarily limited to, causal relationship, clinical necessity and appropriateness of the fees submitted.

An attempt has been made to adhere as closely as possible to the terminology and coding of the American Medical Association's *CPT 2018*.

To ensure uniformity of billing, when multiple services are rendered, each relative value unit is to be multiplied by the conversion factor separately, and then the products are to be added.

FORMAT

The *Official New York State Workers' Compensation Behavioral Health Fee Schedule* consists of one section, which uses the psychology conversion factor. The MD/NP/PA conversion factors are also provided for convenience.

Introductory Information

The introductory ground rules that precede the data include definitions, references, prohibitions, and directions for proper use. It cannot be emphasized too strongly that the introductory ground rules be read and understood before using the data in this schedule.

Regions

The Workers' Compensation Board has established four regions within New York State based on the difference in the cost of maintaining a practice in different localities of the state. The Board has defined each such region by use of the U.S. Postal Service ZIP codes for the state of New York, based upon the relative cost factors which are compatible to that region.

The fees payable for behavioral health services shall be determined by the region in which the services were rendered.

HOW TO INTERPRET THE FEE SCHEDULE DATA

The columns used in the Behavioral Health Fee Schedule vary by section throughout the schedule.

Icons

The following icons are included in the Behavioral Health Fee Schedule:

- New and changed codes—Codes that are new, changed description, or changed value from June 1, 2012.
- ⊕ Add-on service—Add-on codes have been designated in the CPT book as being additional or supplemental procedures that are carried out in addition to the primary procedure.
- ⊖ Modifier 51 exempt service—Modifier 51 exempt codes have not been identified as add-on services but are exempt from modifier 51 when performed in conjunction with other services.
- ⑤ Optum identified modifier 51 exempt service—Additional modifier 51 exempt codes identified by Optum based upon CPT language are exempt from modifier 51 when performed in conjunction with other services.
- ® Altered CPT codes or modifiers—Services listed have been altered from the official CPT code description.
- ∞ State-specific codes or modifiers—Where a CPT code or modifier does not currently exist to describe a service there may be a state-specific code number assigned to describe the service. Relative value units (RVUs) are state assigned or gap filled.

Code

The Code column lists the American Medical Association's (AMA) CPT code. *CPT 2018* is used by arrangement with the AMA. Any altered CPT codes are identified with the registered trademark symbol (®). State-specific codes are identified with the infinity symbol (∞).

Description

This manual lists full CPT 2018 code descriptions.

Relative Value

The Relative Value column lists the relative value units used to calculate the fee amount for a service. Except as otherwise provided in this schedule, the maximum fee amount is calculated by multiplying the relative value units by the applicable conversion factor. Conversion factors are listed later in this chapter.

Relative values are used to calculate fees using the following formula:

$$\begin{array}{rcl}
 & \text{Relative Value} & \\
 \times & \text{Applicable Conversion Factor} & \\
 \hline
 = & \text{Fee} &
 \end{array}$$

For example, the fee for code 90832, performed in Region I or Region II, would be calculated as follows:

$$\begin{array}{rcl}
 & 12.59 & \text{(Relative Value)} \\
 \times & \$7.94 & \text{(Psychology Conversion Factor} \\
 & & \text{for Region I and II)} \\
 \hline
 = & \$99.96 &
 \end{array}$$

BR

Some services do not have a relative value unit because they are too variable or new. These by report services are identified with a "BR."

FUD

The FUD column lists the follow-up days included in a surgical procedure's global charge. In counting follow-up days, day one is the day of surgery, not the discharge day. The State of New York has determined the number of follow-up days in this schedule and these follow-up days are consistent with those found in the Medicare Physician Fee Schedule. Follow-up days will be designated as 000 (0 follow-up days), 010 (10 follow-up days), or 090 (90 follow-up days). Medicare also uses letter designations to identify four circumstances where the usual follow-up days concept does not apply. These four circumstances are as follows:

MMM	Describes services in uncomplicated maternity care. This includes antepartum, delivery, and postpartum care. The usual global surgery concept does not apply.
XXX	Indicates that the global surgery concept does not apply.
YYY	Indicates that the global period is to be established by report.
ZZZ	Indicates that the service is an add-on service and, therefore, is treated in the global period of the primary procedure that is billed in conjunction with the ZZZ service. Do not bill these codes with modifier 51. Reimbursement should not be reduced.

Postal ZIP Codes By Region

See Appendix.

CONVERSION FACTORS

Regional conversion factors for services rendered on or after
TBD.

Section	Region I	Region II	Region III	Region IV
Psychology	\$7.94	\$7.94	\$9.08	\$9.86
MD/NP/PA	\$8.91	\$8.91	\$10.19	\$11.07

Physicians, physician assistants and psychiatric nurse practitioners can bill codes from other sections of the *Official New York State Workers' Compensation Medical Fee Schedule* as appropriate (such as E/M, Medicine, etc.) and should determine their fees using the corresponding conversion factors listed in that manual's Introduction and General Guidelines section.

NEW, CHANGED, OR DELETED CPT CODES

See Appendix.

BEHAVIORAL HEALTH SERVICES PROVIDED BY PHYSICIANS, PSYCHIATRIC NURSE PRACTITIONERS, PSYCHOLOGISTS, LICENSED CLINICAL SOCIAL WORKERS, AND PHYSICIAN ASSISTANTS

Behavioral health services may be rendered by providers that are New York State Workers' Compensation Board (NYS WCB) authorized (unless an exception applies) and are:

- Licensed Psychiatrist
- Licensed Physician with a specialty classification code for Psychiatry & Neurology from American Board of Psychiatry & Neurology as published on the WCB webpage
- Board Certified psychiatric nurse practitioner
- Licensed psychologist
- Licensed clinical social worker
- Appropriately certified Physician Assistant with eligible Supervising Physician

Physicians, physician assistants, and psychiatric nurse practitioners may use the full version of the *Official New York State Workers' Compensation Medical Fee Schedule* and the codes and conversion factors therein. All reports and bills shall be submitted in the format prescribed by the Chair by the treating authorized provider. Fees shall be paid at the following rates:

- Psychiatric nurse practitioners and physician assistants shall bill at 80 percent of the applicable medical treatment code and conversion factor available to physicians
- Psychologists shall bill using the applicable behavioral health treatment code and conversion factor
- Licensed clinical social workers shall bill at 80 percent of the applicable medical treatment code and conversion factor for psychologists

BEHAVIORAL HEALTH GROUND RULES

1A. NYS Medical Treatment Guidelines

Treatment of work-related injuries should be in accordance with any currently published, applicable Medical Treatment Guidelines adopted by the Chair of the Workers' Compensation Board. If there is a conflict between the fee schedule ground rules and the Medical Treatment Guidelines, the guidelines will prevail. Treatment that correctly applies the recommendations of the Medical Treatment Guidelines does not require prior authorization, unless prior authorization is otherwise required by statute, regulation, or the fee schedules. Treatment that is not a correct application of or is outside or in excess of the Medical Treatment Guidelines is not authorized, unless the payer or Workers' Compensation Board has approved a variance. All other treatments require prior authorization.

1B. Biofeedback

When more than one treatment is performed on the same day, the maximum reimbursement will be limited to the highest single relative value. All applicable Medical Treatment Guidelines must be followed.

2. Psychological, Behavioral, and Neuro-cognitive Testing

Reimbursement for Psychological, Behavioral, and Neuro-cognitive testing is limited to **11 hours in any 12-month period**.

Psychological, Behavioral, and Neuro-cognitive testing should not be used routinely. When appropriate, documentation should include the specific indication for each test and overlapping and/or duplicate testing should be avoided. Tests, when administered, must be used in correlation with clinical interview data to monitor a patient's condition and progress. Repeat testing is generally not necessary or indicated, particularly when the clinical documentation supports improved outcomes or stable condition. Ongoing documentation should include updates to treatment plans, efficacy of medications and/or treatments, and overall progress towards expected goals. Qualifications of the "technicians" and "qualified health

care professionals" referenced in these procedure codes must satisfy the requirements as provided for in Article 153 of the State Education Law. All applicable Medical Treatment Guidelines must be followed.

Also see Ground Rule 7.

3. Miscellaneous and By Report Codes

1. Providers should only use codes listed in the Fee Schedule. When billing a service or procedure, select the CPT code from the WCB Behavioral Health Fee schedule that accurately identifies the service or procedure performed. If no such code is available, report the service or procedure using the closest appropriate **Miscellaneous** code in the Fee Schedule (often ending in -99). These codes may also be titled "Unlisted," "Unspecified," or "Not Otherwise Specified".
2. By Report (BR) in the Relative Value (RVU) column represents services that too variable to permit assignment of RVUs. Fees for such procedures need to be justified with additional information.
 - The inclusion of a miscellaneous or by report code in this Fee Schedule does not guarantee reimbursement. All codes billed should be based on medical necessity and be in alignment with all applicable Medical Treatment Guidelines and Fee Schedule Ground Rules. Reimbursement may be dependent on multiple factors, including but not necessarily limited to, causal relationship, clinical necessity and appropriateness of the fees submitted.
 - It is the responsibility of the provider to ensure all information required to process a miscellaneous or by report procedure is included with the bill. If required information is missing, or if there is a valid code that describes the procedure, then the code may not be reimbursed.
 - Nearly all miscellaneous and by report codes, require prior authorization (PAR). If a procedure or item is not recommended or not addressed in an applicable WCB Medical Treatment Guideline (MTG), then prior authorization is always required. If the procedure or item involves a body part or condition for which there is no MTG and costs over \$1,000 then prior authorization must be obtained.
 - While emergency procedures/items do not require prior authorization, the circumstances must be identified and explained in the procedure record. The codes billed may be subject to review and non-payment.

- When a miscellaneous or by report code is used, the actual service/item should be identified on the bill, narrative note, and in an additional attached report.
- The price billed must be substantiated by indicating the closest comparable code found in the current fee schedule and/or with a manufacturer's invoice.
- Documentation should include: any decision making, medical necessity and explanation why an existing fee schedule code could not be used.
- Any PARs including identification numbers should also be submitted with bills.
- Miscellaneous and by report codes should not be billed merely to describe a proprietary product or procedure, when an existing fee schedule code adequately describes the procedure or item.
- Surgical miscellaneous or by report codes may require additional documentation including: time, skill, equipment necessary, diagnosis, pertinent history, and physical findings, size/ location/number of lesions or procedures.

4. Medical Testimony

Attendance fees for depositions are handled in accordance with Part 301 of Title 12 NYCRR of the NYS Workers' Compensation regulations and information may also be found on the Board's website at wcb.ny.gov.

5. Evaluation and Management

Evaluation and management services **may** be reported by physicians, physician assistants, and psychiatric nurse practitioners with codes 90833, 90836, and 90838 when both services are performed and documented. If psychometric testing is indicated by findings in the initial encounter, time for such testing should not exceed an additional three hours of professional time.

6. Central Nervous System Assessments/Tests (e.g., Neuro-cognitive, Mental Status, Speech Testing)

See Ground Rule #2 above for **Psychological, Behavioral, and Neuro-cognitive Testing**.

It is expected that the administration of these tests will generate material that will be formulated into a report. Qualifications of the "technicians" and "qualified health care professionals" referenced in these procedure codes must satisfy the requirements as provided for in Article 153 of the State Education Law.

Qualifications of the “technicians” and “qualified health care professionals” referenced in these procedure codes must satisfy the requirements as provided for in Article 153 of the State Education Law.

7. Use of code 97127 and 97533

Reimbursement for code 97127 is limited to a maximum of 1 unit per day. Code 97533 may be reported a maximum of 2 units per day and is limited to 1 unit per day when reported on the same date with code 97127. Both services must be performed face-to-face.

When billing code 97127, an initial report must be submitted containing:

- A. Outline of the claimant's current cognitive skill level
- B. Proposed treatment plan
- C. Expected goals

Thereafter, a progress report should be filed at least every four weeks that updates:

- A. The claimant's current cognitive skill level
- B. The treatment plan
- C. Claimant's progress towards expected goals

All reporting requirements are inclusive in the fee for the service.

8. Health and Behavior Assessment/Intervention

Assessment and intervention codes are reported for patients with physical health problems where the focus is not on mental health, but emotional and social factors contributing to the individual's well-being. When psychiatric services are performed during the same encounter, the dominating service should be reported, but not both services.

Information obtained through the assessment testing is interpreted and a written report is generated. The interpretation and report are included in the service.

Codes 96150-96155 describe services associated with an acute or chronic illness (not meeting criteria for psychiatric diagnosis), prevention of a physical illness or disability, and maintenance of health, not meeting criteria for a psychiatric diagnosis, or representing a preventive medicine service.

For patients that require psychiatric services (90785–90899) as well as health and behavior assessment/intervention (96150–96155), report the predominant service performed. Do not report codes 96150–96155 in addition to codes 90785–90899 on the same date.

Evaluation and management services including counseling risk-factor reduction and behavior change services should not be reported on the same date of service when provided by the same provider.

9. Modifiers

Modifiers augment CPT codes to more accurately describe the circumstances of services provided. When applicable, the circumstances should be identified by a modifier code: a two-digit number placed after the usual procedure code. Appendixes referenced in the modifier descriptions are found in the CPT 2018 book. Modifiers commonly used in the Medicine section are:

1B∞ Behavioral Health Provider Enhanced Reimbursement

- Provides a 20 percent reimbursement increase for certain E/M and psychotherapy services.
- The following types of codes may not be appended with modifier 1B: diagnostic testing codes, and procedural codes. MD, DO, PA & NP should refer to Medical Fee Schedule for restriction on E/M codes and the usage of 1B modifier.
- Behavioral Health consultation codes may use modifier 1B.
- ** Modifier 1B may be used by psychologists and LCSWs with the appropriate telehealth codes.
- May only be used by the following WCB authorized Behavioral Health providers:
 - a. Licensed psychiatrist
 - b. Licensed physician with a specialty rating code from American Board of Psychiatry & Neurology as published on the WCB webpage
 - c. Board certified psychiatric nurse practitioner (NP)
 - d. Appropriately certified physician assistant (PA) with eligible supervising physician
 - e. Licensed psychologist
 - f. Licensed clinical social worker

** See current Telehealth Ground Rule and webpage: <https://www.wcb.ny.gov/telehealth/>

See **Appendix** for Behavioral Health Provider Enhanced Rating Codes.

25 Significant, Separately Identifiable Evaluation and Management Service by the Same Physician or Other Qualified Health Care Professional on the Same Day of the Procedure or Other Service

It may be necessary to indicate that on the day a procedure or service identified by a CPT code was performed, the patient's condition required a significant, separately identifiable E/M service above and beyond the other service provided or beyond the usual preoperative and postoperative care associated with the procedure that was performed. A significant, separately identifiable E/M service is defined or substantiated by documentation that satisfies the relevant criteria for the respective E/M service to be reported (see Evaluation and Management Services Guidelines for instructions on determining level of E/M service). The E/M service may be prompted by the symptom or condition for which the procedure and/or service was provided. As such, different diagnoses are not required for reporting of the E/M services on the same date. This circumstance may be reported by adding modifier 25 to the appropriate level of E/M service. Note: This modifier is not used to report an E/M service that resulted in a decision to perform surgery. See modifier 57. For significant, separately identifiable non-E/M services, see modifier 59.

51 Multiple Procedures

When multiple procedures, other than E/M services, Physical Medicine and Rehabilitation services, or provision of supplies (eg, vaccines), are performed at the same session by the same provider, the primary procedure or service may be reported as listed. The additional procedure(s) or service(s) may be identified by appending modifier 51 to the additional procedure or service code(s). **Note:** This modifier should not be appended to designated "add-on" codes (see CPT Book Appendix D).

93 Synchronous Telemedicine Service Rendered Via Telephone or Other Real-Time Interactive Audio-Only Telecommunications System

Synchronous telemedicine service is defined as a real-time interaction between a physician or other qualified health care professional and a patient who is located away at a distant site from the physician or other qualified health care professional. The totality of the communication of information exchanged between the physician or other qualified health care professional and the patient during the course of the synchronous telemedicine service must be of an amount and nature that is sufficient to meet the key components and/or requirements of the same service when rendered via a face-to-face interaction.

95® Synchronous Telemedicine Service Rendered Via a Real-Time Interactive Audio and Video Telecommunications System

Synchronous telemedicine service is defined as a real-time interaction between a physician or other qualified health care professional and a patient who is located at a distant site from the physician or other qualified health care professional. The totality of the communication of information exchanged between the physician or other qualified health care professional and patient during the course of the synchronous telemedicine service must be of an amount and nature that would be sufficient to meet the key components and/or requirements of the same service when rendered via a face-to-face interaction.

99 Multiple Modifiers

Under certain circumstances 2 or more modifiers may be necessary to completely delineate a service. In such situations modifier 99 should be added to the basic procedure, and other applicable modifiers may be listed as part of the description of the service.

10. Treatment by Out-of-State Providers

Claimant lives outside of New York State—A claimant who lives outside of New York State may treat with a qualified out-of-state medical provider. The medical treatment shall conform to the Medical Treatment Guidelines and the Ground Rules included herein. This includes obtaining any required Prior Authorization (PAR).

Payment for medical treatment shall be at the Fee Schedule for work-related injuries and illnesses as available in the state where treatment is rendered, or if there is no such fee schedule, then such charges shall be as prevail in the community for similar treatment. Out-of-state providers are required to use only those CPT codes listed in the current applicable New York State WCB fee schedules.

Presence of a CPT code in this fee schedule does not imply medical necessity which is determined by the NYS Medical Treatment Guidelines.

All fees shall be subject to the jurisdiction of the Board.

Claimant lives in New York State but treats outside of New York State—A claimant who lives in New York State may treat with a qualified or Board authorized out-of-state medical provider when such treatment conforms to the Workers' Compensation Law and regulations, the Medical Treatment Guidelines and the Medical Fee Schedule. Payment shall be made to the medical provider as set forth herein and using the regional conversion factor for the ZIP code where the claimant resides.

Out-of-state medical treatment that does not "further the economic and humanitarian objectives" of Workers' Compensation Law may be denied by the Board.

A medical provider who has had a NYSWCB authorization suspended, revoked or surrendered shall not be qualified to treat out-of-state.

Permanency—The New York State guidelines on permanent impairment, pertaining to both the schedule loss of use and classification, apply regardless of whether claimant lives in or out of New York State.

11. Non-Schedule Permanency Evaluations

Code 99243 is used to report a non-scheduled permanency evaluation. Codes 99455–99456 may not be used for this purpose.

12. Behavioral Health Provider Enhanced Reimbursement

In an effort to increase the number of Board-authorized providers in behavioral health to render care and treatment to injured workers, the WCB has established WCB specific modifier 1B.

- Provides a 20 percent reimbursement increase for certain E/M and psychotherapy services.
- The following types of codes may not be appended with modifier 1B: diagnostic testing codes, and procedural codes. MD, DO, PA & NP should refer to the Medical Fee Schedule for restriction on E/M codes and the usage of 1B modifier.
- Behavioral Health consultation codes may use modifier 1B.
- ** Modifier 1B may be used by psychologists and LCSWs with the appropriate telehealth codes.
- May only be used by the following WCB authorized Behavioral Health providers:
 - a. Licensed psychiatrist
 - b. Licensed physician with a specialty rating code from American Board of Psychiatry & Neurology as published on the WCB webpage
 - c. Board certified psychiatric nurse practitioner (NP)
 - d. Appropriately certified physician assistant (PA) with eligible supervising physician
 - e. Licensed psychologist
 - f. Licensed clinical social worker

** See current Telehealth Ground Rule and webpage: <https://www.wcb.ny.gov/telehealth/>

See **Appendix** for Behavioral Health Provider Enhanced Rating Codes.

13. Codes in the Behavioral Health Fee Schedule

An authorized psychologist and licensed clinical social worker may only use CPT codes contained in the Behavioral Health Fee Schedule for billing of treatment. A psychologist and social worker may not use codes that do not appear in the Behavioral Health Fee Schedule.

14. Telehealth

Effective July 11, 2023, the NYS Workers' Compensation Board adopted *permanent* regulations for telehealth appointments in certain situations. Telemedicine is not available to all provider types.

Treatment may be rendered by telehealth when medically appropriate and subject to the restrictions contained in the currently published regulations.

1. **Behavioral Health** Psychiatrists, Psych PAs, Psych NPs may bill:
 - Psychotherapy/Combination/crisis codes: **90832-90834, 90836-90840**
 - Group therapy: **90853**
 - MD, DO, PA & NP should refer to Medical Fee Schedule or WCB webpage for Telehealth regulations. and restrictions for E/M codes.
2. Psychologists and LCSWs may bill:
 - Psychotherapy/ crisis codes: **90832, 90834, 90837,90839, 90840**
 - Group therapy: **90853**
3. All eligible provider types should use:
 - Modifier **95** for two-way Audio and Visual communication
 - Modifier **93** for Audio only
 - Place of service (POS) code **10** for patient located in their home
 - POS code **02** for patient located in a healthcare setting that is not their home
4. Modifier **1B** may *not* be used with E/M codes but may be billed with applicable psychotherapy/group therapy telehealth codes.

Updates or modifications to WCB Telemedicine regulations may supersede the content published in this edition of the WCB Fee Schedule.

All current rules and restrictions for telehealth are found on the WCB webpage: <https://www.wcb.ny.gov/telehealth/>

15. Narrative Reports

A detailed narrative report must be submitted with all services provided. Narrative report must include the following elements in a highly visible location: Work Status, Casual Relationship & Temporary Impairment Percentage. Providers are strongly encouraged to use the narrative template format found on the WCB webpage [CMS 1500 Requirements](#).

Additional narrative information should include the history of the injury/illness, any objective findings based on the clinical evaluation, plan of care and your diagnosis(es)/assessment of the patient.

Time must be documented whenever the CPT code definition is based on time spent with patient, or if necessary to justify a higher or additional code billed.

Any ordered medications, durable medical equipment, tests, or procedures should be thoroughly explained.

All entries in the medical record must be legible to another reader.

16. Electronic Billing

Providers may offset the cost of using an electronic submission partner by using code 99080 as a "By Report" (BR) code, up to a maximum value of one dollar. The code should be placed on the same CMS 1500 form for which the billable services payment and the electronic submission costs are being requested. The price listed by the provider for code 99080 should accurately reflect the actual cost incurred by the provider for the electronic submission of the individual bill, up to a maximum of one dollar. Please see any current guidance on the WCB webpage.

17. Multiple Case Numbers

If a claimant has more than one WCB claim/number, it is permissible to bill services for both claims on the same date of service. Separate bills should be submitted for each claim/visit. However the total time billed for each claim number should not exceed the actual face to face time spent with the patient. The visits need to be scheduled and documented as two distinct and sequential office visits, with two distinct and separate office visit notes.

18. Exempt From Modifier 51 Codes

As the description implies, modifier 51 exempt procedures are not subject to multiple procedure rules and, as such, modifier 51 does not apply. Fee schedule amounts for modifier 51 exempt codes are not subject to reduction and should be reimbursed at the lesser of 100 percent of the listed value or the billed amount.

The CPT book identifies these services with the Ⓢ symbol.

Modifier 51 exempt services and procedures can be found in CPT 2018 book.

In addition to the codes noted in CPT book, Optum has identified codes that are modifier 51 exempt according to CPT guidelines. The additional Optum modifier 51 exempt codes are identified in the data with the icon Ⓢ. See Appendix.

BEHAVIORAL HEALTH**90785-99499****Behavioral Health Fee Schedule****Effective TBD**

	Code	Description	Relative Value	FUD
